

CLEANTECH VENTURE WEEK – AGENDA

November 23rd – 26th 2020

#cleantechday #cleantechweek

Together we act: The Paris Agreement and its target of 1.5 C, the Covid-19 pandemic and its impact on the economy and the postponing of COP-26 are all signs that we need to unite in order to create new ways of living and working supported by cleantech and climate-positive innovations. Innovators and investors are key to developing new solutions: do join us at the first digital Cleantech Venture Week which we will build on the success of 14 years of Cleantech Venture Days in London and Helsinki.
